RIASEC Healthcare Careers: Find a match for your interests in the Healthcare industry

Large healthcare facilities operate around the clock, seven day a week and employ many kinds of workers. Few industries offer such a wide variety of occupations.

Interests generally refer to the like or dislike of activities. You will function best and find job fulfillment in work environments that are in harmony with your personality. Human personalities and work environments can be classified into the six broad categories of vocational personalities and environments described below. Personalities and occupations are combinations of more than one interest area. Occupations are listed below under their highest interest area(s).

What are your interests?	Matching Occupations in the Healthcare Industry
